Ajax Construction Kit: Building Plug-and-Play Ajax Applications

Synopsis

Supercharge Your Sites with Ajax Right Now...No Scripting Expertise Needed! YouTMve heard how great Ajax is--how it can help make your Web sites more usable, more interactive, more responsive, more successful. Ajax Construction Kit lets you put Ajax to work right now, even if youTMve never written a script! Just learn a few essentials, check out a few examples, then run the live CD and discover all the plug-and-play code you need to hit the ground running. Ajax Construction KitTMs built-in applications work right out of the box. And with easy guidance from Michael Morrison, youTMll gradually deepen your understanding--learn how to customize, extend, and reuse these applications---and even build skills for creating new ones. Walk away an expert.

Â Use Ajax Construction KitTMs ten complete applications to Dynamically load Web data
Dynamically populate lists Tap into RSS news feeds Use AutoComplete to reduce input errors
Create more responsive GUIs with real-time validation Build a killer interface for viewing images
Present information or advertising with slick pop-ups Provide an up-to-the-minute weather forecast
Build an e-commerce product shipping calculator Add ratings tools to your site And more... Â

CD-ROM Includes Your complete Ajax projects: Run the Ajax projects (HTML, JavaScript, and PHP source code) that are included on the CD from your Windows, Mac OS X, or Linux system.
Your complete Ajax environment: Boot the CD as an Ubuntu Linux live CD to immediately begin working with the Ajax projects (no setup required). Ready-to-run tools on the CD include the XAMPP Web server, Firefox Web browser, and Bluefish HTML editor. System Requirements:
Platform: Windows, Linux, Mac (OS X or higher) Processor: Intel-based processor (Pentium or higher) Memory: 128 MB RAM or more Disk space: None required; USB thumb drive optional to store data Optical drive: CD reader

Negus Live Linux Series Your Practical, Hands-On Guides to Getting Real Results with Free Software Add the free software and examples from the bookTMs CD to your Windows, Mac OS X, or Linux system to follow along with the projects described in the book. Or boot the CD directly to use a complete, prepackaged set of free software tools to play, display, and modify those projects. Start as a novice, by trying out examples...and finish with professional Ajax-enabled Web content! Â

SERIES EDITOR CHRISTOPHER NEGUS is the bestselling author of the Red Hat Linux Bible series, Linux Toys series, and this seriesTM flagship title, Linux Live CDs. Â

Customer Reviews

I don't think I've seen another "learning Ajax" book where the author dared assume you know next to nothing about Javascript or PHP, but that's exactly what this author does, and he makes it work beautifully. He has a hands-on approach, doesn't bother with explaining things you don't need to know, and jumps right in to the important stuff: here's something that works, here's the code, and if you look right *here*, that's where you could start tinkering to make it something you could use.. a very refreshing approach. I like his style, I like the book. Good job. Comes with a LiveCD so you can play with everything presented.

I got my book in about 8 days from the day I ordered. It arrived in good condition (new!!). Seller emailed me with tracking number, when I was little concerned about arrival date. Good stuff for the price. Highly recommend to anyone. Cheers!
