Age Range: 4 - 8 years

Grade Level: Preschool - 3

## **Customer Reviews**

I was originally looking for a book that was once introduced to me in the past about losing a loved one. Then it dawned on me, that specific book addressed "after" your loved one was gone. When to my surprise I cam across this book which was exactly what our family scenario needed. Great for young children to understand and even better for parents and loved ones try to find the right words and strength to confront what needed to be done. Excellent with step by step realistic outcomes.

Highly recommend

I'm still on the hunt for a more accurate explanation of cancer for kids. This book was great in helping explain emotions that the kids would probably go thru with our family member having cancer. My 7 year old completely understood all the emotions the book talked about. I would recommend!

Overall this is a pretty good starting place as a book about cancer for younger kids. I was bummed to read the last few pages, though, as they talk about praying and we are not a religious family. I would have appreciated knowing there were Christian overtones before buying this book.

We bought this book for our kids when we found out that she was diagnosed with cancer. It made it easier for them to understand what is going on. I recommend this book.

It was out my door the first week I got it. A great resource for both parents and teachers to help explain a complicated illness.

This book explained the various parts of cancer and emotions in a very kid friendly way. It helped my 8 year olds better understand what is going on with their loved ones.

Returned it...not appropriate for some children's minds. I highly recommend the parents read first in a book store and make the decision how you want to approach with child. It mentions suicide.

Very well written and illustrated. Would be a great help for any adult who must try to explain to a child why a person they love is ill and what is happening to their bodies. It could address many unasked questions a child may have and frightening feelings they may be experiencing. Well worth having in your library.
