This "book" is a joke. The 5 star reviews must have been written by shills. There are only about 22 pages. The first few pages are so general they are useless. The Table of Contents is a joke (two chapters displayed.) The pages are not numbered, so how does one refer back to notes or references? In Tip # 7 gaming is spelled 'gamming.' In Tip #10 finger is spelled 'finer.' Tip # 11 spells infrared as 'inferred.' The above mistakes were noted by me before I got half-way through so I suspect more exist. If the writer was this careless with such basic things, how could he be trusted to be credible with his "tips?" There are only 33 "tips" and they are not 'amazing' as the cover states.

They are vague at best; and one would think a five year old child wrote this drivel ! Save your money and don't be conned into buying this book. I wish I were able to get my money back. Vince L
