Synopsis

Take a journey back in time to the year 1240 to meet Baron Godfrey and his family, knights and servants. Customer Reviews

My son is very into knights. Visually this book is great. There is a decent amount of reading, not much of a story but more information on medieval times. The book is interactive in sense in that it is written as though you are time traveling. Recommended for 5 and older!

Good content but flimsy paperback. Expected better paper quality and more vivid illustrations from this publisher. Other Usborne books on this period are much more visually impressive.

Ideal for children who love a little adventure & nice illustrations

I think this is a book very interesting for all ages because of its graphics and easy language, etc. I'd like to get information regarding this type of books.(would like to buy many)(in spanish)
