## **Customer Reviews**

We just received this dictionary and it looks great and easy to read for a fourth grader. However, the three hole punch through the book goes through the text (the holes are not in the margins as I would expect). Therefore every page has three words where part of the word or definition is unreadable! For a child who doesn't know how to spell a word, this is very unhelpful! One would think a book that states "fits into a 3 ring binder" on the front cover would be designed such that the holes would go through the margins!

Great that it fits in a binder. Great that it has tons of entries. My kids have all these reference books in one big binder for ease of finding. Thank you for making it ready made for binders.

It's ok
